OLEG VEREMYEV

FRONTEND DEVELOPER

Hi there. I'm Front-End developer with experience and good knowledge in creating SPA using React, Redux,Typescript, JS, HTML, CSS. I have knowledge in user interface, testing, and debugging processes. I'm improving my skills in this direction and expanding them with new technologies. I'm planning to study Node.js because my next focus is to become a Full-Stack Developer. My free time is dedicated to solving katas on Codewars and boosting my English. I would like to find a project work/full-time job in a creative company with up-to-date task and collaborative team!

2011-2016
Belarusian National Technical University
Design engineer / Process engineer

SKILLS

JavaScript/TypeScript
React/Redux/NodeJS/ExpressJS
SQL/mySQL/PostgreSQL
Flux/BEM/OOP/Hooks
Axios/Rest API/React Thunk/Postman
HTML/CSS/SCSS/SASS/Styled Components
Formik/Classnames
TDD/Unit tests/Cypress/StoryBook/Snapshot tests
Bootstrap/Material UI/AntDesign/Chakra UI
Git/GitHub/Heroku
Trello/Jira
Photoshop/Figma/CorelDraw

LANGUAGES

English - B1 Intermediate
Deutsch - A1 Beginner

EXPERIENCE

Frontend Developer

Took part in creating SPA, developed login and password recovery form page, tests, modal window, pagination, sorting and filtering, theme change. Used next technologies: React/Redux/ReduxThunk/ReduxApi/ReduxForm/Axios/Reselect/MaterialUI/StyledComponents/SCSS/React-Router-Dom and etc. Checked the correctness of the code with Unit tests and took Storybook for demonstration of individual modules of the app. Used Cypress for UI testing. Used TypeScript for best control of the code. Used ESLint and Prettier for code quality control.

PROJECTS

TODOLIST: Link to GitHub
<u>Stack</u>: React, TypeScript, JavaScript, ES6, Redux, SCSS, Redux-Thunk, Redux-Form, React hooks, Axios, Rest API, Postman, Material UI, Unit tests, StoryBook, Snapshot tests, ESLint, Prettier.

QUIZ CARDS: Link to GitHub
<u>Stack</u>: React, TypeScript, JavaScript, ES6, Redux, Redux-Thunk, React hooks, React Router, Reselect, SCSS, Axios, Postman, Rest API, Unit tests, ESLint, Prettier.

SOCIAL-NETWORK: Link to GitHub
<u>Stack</u>: React, TypeScript, JavaScript, ES6, Redux, Redux-Thunk, Redux-Form, React Router, React hooks, OOP, Axios, Rest API, Postman, Reselect, SCSS, Axios, Unit tests, Classnames, WebSocket, ESLint, Prettier.

BOOK SHOP: Link to GitHub
<u>Stack</u>: Stack: React, TypeScript, JavaScript, ES6, React hooks, SCSS, Material UI, Cypress, ESLint, Prettier.

GO PIZZA: Link to GitHub
<u>Stack</u>: React, TypeScript, JavaScript, ES6, Redux Toolkit, React Router, React hooks, Lodash, SCSS, Axios, Redux-Thunk, Rest API, Postman, , ESLint, Prettier.

2016-2022 Lead design engineer

Writing control programs for CNC machine tools.
Writing control programs for electrical installations.
Solid and surface modeling of volumetric and vector models in integrated development environments.
Creation of drawings, operation manuals and product passports.
Communication with the client.
